The section New Publications in Greece aims to raise the readership’s awareness of the current Greek literature regarding music therapy, special music education and other related fields. This section includes publications of books, conference proceedings, chapters and articles that have been published in Greece during the current and previous calendar year. It includes texts written in Greek language, as well as English texts which have been published in Greek sources (e.g., Greek books, proceedings and journals).

This section is published in the first issue of each volume of the journal. Authors, researchers and any interested parties are welcome to send relevant references to publications to the Editor-in-Chief (approaches.editor@gmail.com) so that they can be included in the next journal’s Spring issue.
